

THE BIONDO GROUP

Business Continuity Plan Summary

The Biondo Group, LLC has developed a Business Continuity Plan to address how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions are unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contacting Us – If after a significant business disruption you cannot contact us as you usually do at 570-296-5525, 877-246-6367, team@thebiondogroup.com or at our website www.thebiondogroup.com, you should contact our clearing firm, National Financial Services at 800-801-9942 (www.nationalfinancial.com) for instructions on how it may provide prompt access to funds and securities, enter orders and process other trade-related, cash and security transfer transactions.

Our Business Continuity Plan – We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting the firm's books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our Firms to resume operations as quickly as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses: data backup and recovery; all mission critical systems; financial and operational assessments; alternative communications with customers, employees, and regulators; alternate physical location of employees; critical supplier, contractor, bank and counter-party impact; regulatory reporting; and assuring our customers prompt access to their funds and securities if we are unable to continue our business.

Our clearing firm, National Financial Services, backs up our important records in a geographically separate area. While every emergency situation poses unique problems based on external factors, such as time of day and the severity of the disruption, we have been advised by our clearing firm that its objective is to restore its own operations and be able to complete existing transactions and accept new transactions and payments within a minimal time frame. Your orders and requests for funds and securities could be delayed during this period.

Varying Disruptions – Significant business disruptions can vary in their scope, such as only our firm, the area where our firm is located or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm, we will transfer our operations to a local site when needed and expect to recover and resume business within a minimal time period. In a disruption affecting our area or region, we will transfer our operations to a site outside of the affected area, and recover and resume business as soon as possible. In either situation, we plan to continue in business, transfer operations to our clearing firm if necessary, and notify you through our website (www.thebiondogroup.com) or email about how to contact us. If the significant business disruption is so severe that it prevents us from remaining in business, we will assure our customer's prompt access to their funds and securities.

For more information – If you have questions about our business continuity planning, you can contact us at 570-296-5525 or team@thebiondogroup.com
